D. Pawan Kumar

Senior Graphic Designer

Branding · Signage · Production Artwork · 7 Years Experience

PROFILE

Senior Graphic Designer with 7+ years of expertise in petroleum retail branding, large-format printing, signage design, and production artwork. Proven ability to manage end-to-end branding rollouts across 50+ retail locations — from initial concept through fabrication and on-site installation — while maintaining brand consistency across every touchpoint.

Skilled in prepress, print production, POSM design, vehicle branding, exhibition graphics, and outdoor media — with hands-on production experience operating large-format printing, lamination, and plotter cutting machines, plus CNC panel routing and path-tool creation for ACP/ACM fabrication. Currently employed with Ash & Sims Advertising LLC, Dubai, UAE. Open to GCC branding standards and production workflows.

I also bring a digital dimension — WordPress, SEO, and social campaigns — and actively use AI design tools including Adobe Firefly, Midjourney, and Canva AI to accelerate creative output without compromising quality.

CORE SKILLS & INDUSTRY KEYWORDS

Large Format Printing	Prepress & Print Production	Signage Design
Wayfinding Systems	Vehicle Branding	Exhibition Graphics
Shop & Retail Branding	Outdoor Media	POSM Design
Brand Identity	Branding Guidelines	Vendor Coordination
Print Machine Operation	CNC Panel Cutting & Path Tooling	Vehicle Wrap & Cut Files

PROFESSIONAL EXPERIENCE

Graphic Designer & Print Machine Operator – Vehicle Branding · Ash & Sims Advertising LLC

July 2026 – Present · Dubai, UAE

Advertising and branding company specialising in vehicle wraps and large-format vehicle graphics for the UAE market.

- Work as both Graphic Designer and Print Machine Operator on vehicle branding projects, owning the workflow from concept design through to final print output.
- Take on-site vehicle measurements, design the branding artwork to fit each vehicle's exact dimensions, and prepare client-facing mockups for design approval before production.
- Run the Epson eco-solvent printer and plotter cutting machine to produce print-and-cut files for full and partial vehicle wraps.
- Prepare and submit designs for RTA (Roads and Transport Authority) approval, following UAE government guidelines for vehicle branding compliance.
- Convert approved artwork to TIFF, RIP the files, and manage print production end-to-end from file preparation through final output.
- Select and apply vinyl media suited to vehicle geometry — flat, semi-curve, and fully curve media — for durable, wrinkle-free application on complex body panels.

Senior Graphic Designer · Ambujam Advertising LLC

October 2018 – June 2026 (7+ Years) · Hyderabad, India

Full-service advertising agency specialising in petroleum retail branding, outdoor advertising, signage, large-format printing, and production artwork.

- Designed complete branding systems for 50+ petroleum retail stations — canopy fascia, pump

EDUCATION

BTCA — Osmania University

In Progress · Since 2005

Diploma — Computer Science

3-Year Programme · 2009

island graphics, pylon signage, forecourt wayfinding, shop branding, and in-station POSM — maintaining brand consistency and branding guidelines across all locations.

- Produced all artwork to professional prepress standards: CMYK and Pantone colour profiles, correct bleeds, and material-specific specifications for vinyl, ACM panels, flex banners, and backlit substrates.
- Operated large-format printing, lamination, and plotter cutting machines end-to-end, and designed CNC routing paths for cutting ACP and ACM panels used in Indian Oil and HPCL fabrication branding.
- Redesigned internal workflows and file-management systems, reducing average project turnaround time by 30% — without additional headcount or quality compromise.
- Acted as the primary liaison between clients, fabrication vendors, and installation teams — identifying and resolving technical issues before they became costly on-site.
- Reviewed and guided junior designers and print operators, ensuring consistent quality across all deliverables and upholding branding guidelines at every stage.
- Developed full marketing collateral suites: brochures, flyers, standees, rollup banners, exhibition graphics, vehicle branding, and outdoor media — all production-ready and brand-compliant.
- Presented creative concepts and production plans directly to clients, incorporating feedback efficiently without compromising design integrity.

Web Designer & Digital Marketing Specialist · Freelance

February 2016 — October 2018 · Hyderabad, India

- Built responsive WordPress websites for SME clients across retail, hospitality, and services — delivering complete brand identities alongside each build.
- Ran SEO audits and on-page optimisation campaigns, producing measurable organic traffic growth for clients.
- Managed social media content strategies and campaign execution across Instagram and Facebook.
- Handled full client lifecycle independently — brief, proposal, design, delivery, and reporting — across multiple concurrent accounts.

Floor Sales In-Charge · Mahalakshmi Enterprises (Airtel Franchise)

August 2009 — January 2016 · Hyderabad, India

- Led retail operations, daily sales targets, and a customer-facing team — the foundation of disciplined client communication and deadline management.
- Managed customer inquiries, complaints, and service requests through the Airtel ICRM system, ensuring timely resolution and high customer satisfaction.
- Maintained customer documentation, KYC verification, sales records, and operational reports in compliance with company policies.

KEY ACHIEVEMENTS

- Reduced average project turnaround time by 30% through systematic workflow redesign — without additional headcount or quality compromise.
- Zero major reprints due to artwork error across 50+ locations over six years — a result of rigorous prepress QC and colour management discipline.
- Delivered simultaneous large-format branding rollouts across multiple retail sites under tight construction-phase deadlines.
- Sustained long-term client relationships that generated consistent repeat mandates — rare in project-based advertising.
- Built a freelance client base from zero, managing the full cycle from pitch to delivery across design, web development, and digital marketing.
